

# Rushikesh Fulchand Aware

A/P Sasure, Barshi, Solapur | +91 7028902479 | [rushikeshfaware05@gmail.com](mailto:rushikeshfaware05@gmail.com)

## CAREER OBJECTIVE:

---

I am eager to join development teams where I can apply my technical and problem-solving skills, while benefiting from the guidance of experienced seniors. I aim to strengthen my command over technical skills. I am enthusiastic about contributing to impactful projects, learning from mentors, and advancing my career in the field of technology.

## EDUCATION:

---

### Sveri's College of Engineering

Bachelor of Technology

Major in Computer Science and Engineering

CumulativeGPA: 9.05/10.0

Pandharpur, Maharashtra

2020 - 2024

### A. D. Joshi Junior college

Higher Secondary Certificate Percentage:

73.54%

Solapur, Maharashtra

2019 – 2020

### Jivan-Vikas Vidhya mandir High-School

Secondary School Certificate Percentage:

90.60%

Sasure, Maharashtra

2017-2018

## PROJECT:

---

### Quiz Application (React, JavaScript, HTML, CSS, Bootstrap)

- Developed an interactive quiz application using JavaScript, React, HTML, CSS, and Bootstrap that enables users to add, view, and start various quizzes.
- Utilized React's state management and component-based architecture to dynamically update content and provide a seamless user experience.
- Focused on building an intuitive UI with Bootstrap to ensure responsiveness across devices and efficient handling of quiz functionalities.
- The app enhances user engagement through real-time interactions and smooth transitions between different quiz stages.

## Book Recommendation System (Console-based Java Application)

- Developed a console-based Book Recommendation System using Java with Maven, JDBC and MYSQL as database, following a structured multi-layered architecture (Model, Service, Repository).
- Implemented CRUD operations for entities such as Book, Author, Category, and User through in-memory collections.
- Designed the system to recommend books to users based on their previous history using the K-Nearest Neighbours (KNN) algorithm.
- Integrated repository layer for persistent data storage and retrieval, and created service methods to handle business logic. This project demonstrates proficiency in object-oriented design, algorithm implementation, and effective data management in a Java-based environment.

## SKILLS:

---

**Programming Language:** C, C++, Java, JavaScript.

**Technical Skills:** OOPS.

**Web Technologies:** HTML, CSS.

**Database Management:** SQL.

**Frameworks and Libraries:** Bootstrap, React.js, Spring core, Spring JDBC.

## CERTIFICATION:

---

### JAVA FULL STACK DEVELOPER

Feb 2024

- Java Full Stack Developer course at Giri's Tech Hub, gaining comprehensive knowledge in both front- end and back-end development.
- Studied key technologies including Java, HTML, CSS, JavaScript, and MySQL, Acquired in-depth knowledge to build dynamic and responsive web applications.
- Participating in hands-on projects to develop practical experience in software development methodologies, version control, and deployment processes.
- Collaborating in projects, enhancing teamwork and communication skills while applying agile development principles.
